Mo. S. Rezaie

Full-stack Software Engineer
Visa Sponsorship Not Required

SUMMARY

Full stack software engineer with expertise in the MERN stack. 2+ years of experience developing and deploying web applications and APIs with robust security features. I've also freelanced on various full-stack projects for diverse businesses. Seeking a challenging role in a fast-paced environment where I can use my skills and experience to develop innovative software solutions that make a lasting impact.

EXPERIENCE

Full-stack Developer at Code the Dream | MongoDB | Express.js | React.js | Node.js

- Collaborated with a team of developers building modern and responsive web applications in an agile environment
- Constructed dynamic database schemas using Mongoose & MongoDB with different data structures, ensuring scalability and flexibility
- Created server-side applications using Express.js, including RESTful API endpoints for data retrieval and manipulation, adhering to API design best practices
- Implemented secure user authentication using Passport.js, cookies, sessions, JSON Web Tokens (JWT) for user authentication and authorization
- Designed interactive interfaces with React.js, leveraging reusable components and state management for a smooth and dynamic user experience
- Tracked and documented code additions and modifications through GitHub version control

Apps:

- **Textual Cryptography** ([API](#)) ([Live Site](#)) ([Repo](#)) – A full stack application allowing users to encrypt and decrypt text messages using various cryptography algorithms
- **Groupals** ([API](#)) – Full stack app that facilitates social planning and coordination

Freelance Web Developer | HTML | CSS | JS | Bootstrap | Node.js | Express.js | MongoDB

Created full stack web applications for different businesses presenting their products to the market.

Notable clients:

- **Maajon's Kitchen** ([Live Site](#)) ([Repo](#)) – Customers view the menu of delicious cuisines offered by Maajon's Kitchen and place their order.
- **AYAT Clothing Shop** ([Live Site](#)) ([Repo](#)) – Customers get to choose their favorite clothing designs, get information about the team of designers, get the latest news about the business and contact the owners.

VOLUNTEERING

Volunteer Help Desk Support Technician | Fort Dix, New Jersey

- Assisted in the establishment of a community center for newly arriving guests to the US.
- Curated an online reservation system for guests to allocate a time slot and use laptop PCs.
- Prepared and configured over 50+ PCs to be used by guests.

OTHER APPS

- **Personal Portfolio | HTML | CSS | JavaScript | Node.js | MongoDB** ([Live Site](#)) ([Repo](#)) – An app showcasing my skills, background, projects.
- **Star-Wars Wiki** – a 'fetchAPI' app **| HTML | CSS | Bootstrap | JavaScript** ([Link](#))
- **Home Services** – mobile app for recruiting expertise **| Java | Android Studio | SQLite** ([Link](#))
- **UniProg** – university progress tracker **| Python | PyQt | Qt Designer | SQLite** ([Link](#))
